

SOIL TEXTURE INVESTIGATIONS

Name: _____ Date: _____

Soil Texture Practice Worksheet

Use the following percents of sand, silt, and clay to determine the soil texture name using the textural triangle provided. In the spaces where a number is missing, fill in the appropriate blanks with its correct value.

NOTE: The sum of percent sand, silt, and clay should always add up to 100%.

	% Sand	% Silt	% Clay	Soil Texture Name
1	75	10	15	Sandy Loam
2	10	83		
3	42		37	
4		52	21	
5		35	50	
6	30		55	
7	37		21	
8	5	70		
9	55		40	
10		45	10	
11	35	15		
12	52		44	
13	9	41		
14	23		32	
15		5	27	
16	10	56		
17	40		17	
18		45	3	
19	27	63		
20	9		9	
21	98		2
